Business Plan Judging Criteria

Condition

Condition refers to the marketplace that the business is entering and the management experience or skills that the owner brings to the business. Pay attention to direct experience in the field as well as skills gained in other fields that can be brought to the business to help ensure its success. Local, regional and national economic trends as well as industry specific information are important in judging the condition.

Emphasis should be placed on the following:

- Marketing Plan
- Economic Conditions (local, regional, national)
- Competitive Environment
- Management (planning/operations)
- Potential to create employment in Lowndes County requiring a technical college diploma or university degree and growth in areas such as employment, profit, and revenue.

Capacity

Capacity refers to the ability of the business venture to repay debt. For new businesses, the proposed firm must prove that there is a demand for the products/services it will offer and that the company will be capable of meeting that demand. Market research will be necessary to support the projections.

Emphasis should be placed on the following:

- Pro-forma statements*
- Justification for projections
- Supporting documentation
- Capability of firm/owner to deliver expected projections

** Pro-forma financial statements must include monthly cash flow projections, annual income statement projections, opening day balance sheet and ending yearly balance sheet projections for a minimum of two years. Do not limit the projections to two years if more are necessary to explain the growth potential of the business or clarify its strategy.*

Character

Character refers to personal credit history as well as other personal factors. Contestants will provide a credit report for all proposed principals and possible guarantors again on **January 31, 2018**. This will be required to update eligibility prior to the final judging. The remainder of the character score will be determined by stability issues reflected in the following documents.

Personal Financial Statement* (for all proposed principals)
Resume (for all proposed principals)
References (for all proposed principals)

**A PFS form can be provided to you.*

Collateral

Collateral is the property offered as security to the lender if the business is unable to repay the loan. It is a secondary source of repayment in the event of default. Collateral is required for all loans. While a loan is not implied as part of the prize for the winner, it is required by contest rules that contestants be eligible for possible lending opportunities. Please itemize collateral that could be available to support possible debt, the value of that collateral, whether or not there is an existing lien on it and the person or persons who own it.

Example: 20 acres of land in Lowndes County, market value \$200,000, no debt, owned by Barney Rubble.

Capital

Capital refers to the money and/or assets that the owner has to invest in the business venture. Capital really means the owner's equity in the business venture. There is no requirement for injection, please list any other assets you are willing and able to inject into the start-up. Please list any items below, who owns it and the current market value for each item.

Example: Delivery truck, \$5,000 blue book value, owned by Barney Rubble and \$10,000 in cash to be injected by Fred Flintstone.

Finalist Pitch

The finalist pitch section refers to the presentation given by the individual or group on **Thursday, February 15, 2018**. You may rate each person or team based on his/her/their ability to present the business plan in a clear and concise manner. Please focus on the clarity, style, and quality in which information is presented.
